## PROGRAMME CHANGES

**B**EGINNING this month, Voice of America is sending many new programmes to India. VOA broadcast hours have been increased, and timings of some established programmes have been changed to accommodate the new.

In addition to new broadcast timings, there are new and more frequencies, bringing you outstanding news, information, educational and cultural features in English, Hindi, Bengali, Tamil and Malayalam.

Here is a summary of the new and augmented Voice of America service to India :

### ENGLISH

#### New Morning Service

**A**N outstanding innovation is the introduction of a daily **MORNING** service in English. This is in addition to an expanded **EVENING** schedule of English programmes.

The **MORNING** service consists of three daily half-hour programmes of news and features. Airtimes : 6:30—7 A.M. ; 7:30—8 A.M. ; 8:30—9 A.M. This new **MORNING** English service can be tuned on 25.35 metres (11.835 megacycles). Additional frequencies may be added later ; refer to next month's **Radio Newsletter**.

#### Expanded Evening Service

**A**NOTHER pleasant surprise awaits VOA English language listeners in the huge increase in **EVENING** programme fare. October ushers in a daily Evening schedule of four hours of news and features ; plus "Music U.S.A." The Evening English programmes come in periods of 15, 30 and 90 minutes duration, and can be tuned on a variety of frequencies.

On the regular Colombo Relay frequencies (25.26 metres 11.875 megacycles) and 42.19 metres (7.11 megacycles) Evening English opens with a 90-minute news and feature programme, 5:30—7 P.M. Two 30-minute programmes are heard 7:30—8 P.M. and 8:30—9 P.M. ; and the English finale on these frequencies each night is another 90-minute programme, 9:30—11 P.M. The latter period will include a new "University of the Air," 10—10:30 P.M.

**Our Cover :** Small Town America, in autumn. A street scene in an old Vermont village.

**Note :** Some listeners may obtain better reception on the above listed Evening programmes between 5:30 P.M. and 9:30 P.M. on the **Tangier Relay frequencies** of 13.98 metres (21.455 megacycles), and 11.60 metres (25.88 megacycles).

### **A New English Beam**

**I**N addition to the English VOA programmes relayed from Colombo and Tangier, a new Evening English service is offered for the special benefit of listeners in areas receiving a clear signal from the **VOA Philippines Relay**.

Commencing at 6:30 P.M. daily, this Philippines Relay beam will present 60 minutes of news and features, and 90 minutes of "**Music U.S.A.**" The only interruption in this solid block of English programming from 6:30 to 9:30 P.M. will be 30 minutes of Bengali, 7—7:30 P.M. The frequency is 19.76 metres (15.185 megacycles).

IN MEMORY OF MA  
Gandhiji and Pandit Jawaharlal Nehru, Prime Minister of India, taking  
Bhangi Colon

Lloyd George looked the great man. Churchill and Franklin D. Roosevelt showed stature and distinction. Not Gandhi. Close informal proximity at talks, walks, and meals with this man four-fifths naked was least conducive to awe or veneration, yet for that very reason it brought out the miracle of his personality with a mighty impact. All the props of the big man's impressiveness—the palace or historic mansion, the guards, the wait in the antechamber, the closed door about to open, the power of the office—were lacking. Gandhi's on-the-earth simplicity, devoid of the appearances or reality

GREATNESS O

of power, emphasized his authority. The omnipotent dictator is least likely to have any authority. Gandhi had no power to compel, punish, or reward. His power was nil, his authority enormous. It came of love. Living with him one could see why he was loved: he loved. Not merely in isolated incidents, but day in, and day out, morning, noon, and night, for decades, in every act and word, he had manifested his love of individuals and of mankind.

## OF GANDHIJI

s Fischer

Nor could one fail to notice, in each sentence and attitude, his lifelong loyalty to a few simple, widely flouted principles: the exaltation of means over ends; non-violence; the primacy of truth; the curing qualities of trust; and consideration for the other person's doubts, time-lag, environment, and inner conflicts. He faced each day's issues in the light of eternal and universal values.

By going to the ethical heart of a practical problem and sloughing off

superficial considerations he found the permanent nucleus in the ephemeral. It enabled him to split the social atom and find a new source of energy in the masses. Some had written and spoken as well as he or better. Gandhi's greatness lay in doing what others might do but don't. One sat in wonder before the miracle, for it apparently was an effortless way of life rather than a conscious programme.
